

SERVICE – QUALITY – STRENGTH

COMPANY OVERVIEW

O & J Structural Services are specialists in the design, supply, fabrication and erection of structural steel. O & J projects include factories, warehouses, upmarket houses, shopping centres, schools, fast food outlets, and a wide variety of construction projects or alterations/additions to existing structures. The company is well-known throughout the Western Cape, and has a first-rate reputation for expert consulting, quality workmanship and professional service.

O & J Structural Services is a **Level One B-BBEEE** service provider.

MANAGEMENT OVERVIEW

Founded in 2002 by Otto and Jason Grobler, O & J Structural Services was acquired by Mechanical Engineers Sedick Gydien (CEO) and Vincent Hendricks, of Pandorum Consulting, in 2015.

In addition to their other business interests, both Sedick and Vincent have over thirty years' experience in senior management positions within international oil and energy companies - embracing general business management, engineering design, and consulting as well as project management.

VISION

O & J's vision is to be a market leader in the delivery of all-inclusive steel structure fabrication and construction solutions, primarily in the Western Cape, and then further afield, which meets even the most challenging of client expectations.

MISSION STATEMENT

Toward realising their vision, O & J Structural Services offers the highest level of support for their customers – embracing profitable growth through superior customer service, specialist expertise, and a total commitment to a quality product, skilfully installed.

SERVICES

O & J STRUCTURAL SERVICES specialises in:

- Portal Frames
- Trusses
- Castellated Beams
- Rolled Sections
- Bespoke designs required by Architects, Engineers and Private Developers
